EDUCATION

Crescent University, Abeokuta, Ogun State, Nigeria *September 2025 – October 2026*

Bachelor of Science in Computer Science

CGPA: 4.83/5.00

Best Graduating Student (BGS), Department and College

SKILLS

Languages: JavaScript, PHP, Python, SQL, HTML, CSS
Frameworks & Libraries: React, Node.js, Express.js, FastAPI, Laravel, Bootstrap
Databases: MySQL, SQLite, MongoDB
Developer Tools: Git, GitHub, VS Code, Postman
Soft Skills: Communication, Teamwork, Problem-solving

TECHNICAL PROJECTS

Web-Based Intelligent System for the Detection of Counterfeit Pharmaceutical Products

(React, Node.js, Express.js, FastAPI, SQLite, XGBoost, Python)

- Developed a full-stack web application that verifies pharmaceutical products using database lookup and machine learning.
- Integrated a Node.js/Express backend with a FastAPI ML service (XGBoost model) for counterfeit detection.
- Implemented secure product verification, user authentication, and detailed result reporting.
- Built a responsive React frontend and used SQLite for local product registry management.

Book Management System

(React, Node.js, Express.js, MongoDB, Mongoose)

- Developed book management workflows including book uploads, user libraries, and authentication.
- Implemented book access requests so users can request permission to access books.
- Built request management functionality for book owners to review incoming access requests.

Company Archive Management System

(React, Tailwind css, Node.js, Express.js, MongoDB, Mongoose)

- Developing a company-based system where each company administrator can add and manage user details.
- Enabled registered users to sign in to their accounts.

Post Creation System

(Laravel, PHP, MySQL, Bootstrap)

- Developed a full-stack web application with user registration, login, profile management, and post CRUD operations.
- Implemented form validation, authentication middleware, and role-based access.
- Designed database schema and migrations for efficient data storage using MySQL.

PROFESSIONAL EXPERIENCE

IT Intern *July 2025 – October 2025*

Adron Homes & Properties

- Assisted in reviewing the company's new website, identifying areas for improvement in usability and overall user experience.
- Supported data migration activities, helping to transfer and organize existing data accurately.
- Assisted other departments with resolving day-to-day IT-related issues and providing basic technical support.
- Worked with the team to review digital processes and ensure information was accurately maintained during migration.

Vice President *September 2025 – July 2026*

Crescent University, Computer Science Department (CICOT)

- Coordinated and supported the organization of seminars, hackathons, and other departmental events for students.
- Assisted with academic tutorials and peer-to-peer learning to support student success.
- Acted as a communication link between students and lecturers/staff, facilitating clear communication and addressing student concerns.
- Developed strong leadership, communication, coordination, and problem-solving skills through collaboration.
